TAJUK PENYELIDIKAN

(1 line, font 12 pt.)

Penulis¹, Penulis² & Penulis³

*Jabatan / Nama Institusi, Negeri¹, Jabatan / Nama Institusi, Negeri² & Jabatan /
Nama Institusi, Negeri³* (center, font 12 pt., Italic)

(2 lines)

Abstrak: (left, font 11 pt. bold) Write clearly and concisely. Approximately 10 - 15 lines, divided into one paragraphs. There are all the essentials in the research). Consists of research objectives, background, methodology, tools, data collection, sample, place of conducting data, statistics, and data analysis. Summarize the results of the research and present guidelines for implementing the research results. (font 11 pt)

Kata Kunci: Please specify keywords that are suitable for use as search terms in the database, no more than 3-5 keywords (font 11 pt.)

1.0 PENGENALAN (left, font 11 pt. bold)

It is a topic that explains the reasons, and the necessity of conducting research, introducing broadly to see the problem. Point out or raise issues or limitations that arise. Offer information font or solutions. Summarize the reasons and the necessity of conducting the research. Can be concluded from the background and importance of the problem in the research report.

- State the problem and development needs
- Study concepts/theories to solve problems or to develop
- Reference concepts/theories that are reliable.
- Propose ideas for solving problems that can be implemented. (1 line, font 11 pt.)

Objectives

The message is short, concise, easy to read and understand. (Beginning with action verbs)

- 1.1 Consistent with background and research problems
- 1.2 Can clearly see the results that will occur.
- 1.3 The results that will occur can be used to solve problems.
- 1.4 It is a conclusion point or an important answer in the research.

Research hypothesis (if any)

Present the researcher's reasonably anticipated answers to the research problems using clear, easy-to-understand, and concise language.

2.0 SOROTAN KAJIAN (left, font 11 pt. bold)

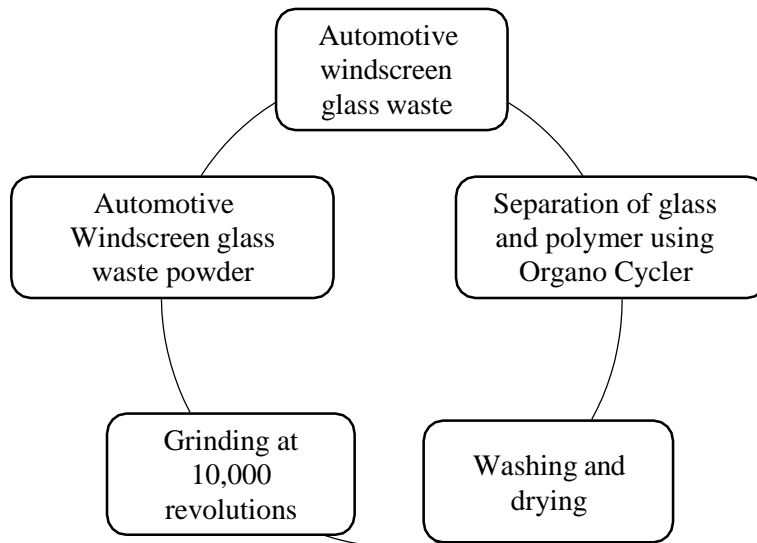

Figure 1: Preparation of automotive windscreen glass waste powder
(Centre, TNR, point 11)

3.0 METODOLOGI KAJIAN (left, font 11 pt. bold)

Present the process of conducting research. Explain the nature of innovations used in research, the steps of creating and developing innovations, and how to find the innovation's quality before implementing.

- 3.1 Creation and development of innovation
- 3.2 Determine the population and sample correctly according to the research methodology.
- 3.3 Identify the research tools used in the research in its entirety.
- 3.4 Identify the process of creating and finding the quality of research tools based on academic principles.
- 3.5 Clearly state the details of the research and the method of data collection.

4.0 HASIL DATAN DAN PERBINCANGAN (left, font 11 pt. bold)

Present research results according to research objectives. Briefing on data analysis and interpretation. Data analysis results should present the data using pictures, table or chart as well as there is an explanation of the meaning or content of the picture, chart, or table.

- 4.1 Present research results according to research objectives.
- 4.2 Present research results using pictures, charts, or tables.
- 4.3 There is a detailed description under the picture, chart, or table.

Table 1: Surface area and total area in pores of OPC and WGWP

Parameter/Material	OPC	WGWP
BET Surface Area (m ² /g)	1.0242	0.6462
Total area in pores (m ² /g)	0.1250	0.2100
Density (g/cm ³)	2.9885	2.5318

TNR Style, 11,
Single Spacing

Presentation of research results using illustrations, including pictures, charts, and tables, line drawings, or photographs, with a resolution of at least 300 dpi. Characters appearing in the illustrations must be legible. Illustrations should fit the column. Inserting images should use images with sharp lines and legibility. Using very light tones will produce blurry prints. Illustrations and tables must include the number and name of the figure and chart and sort the number sequentially.

Discussing the findings is an important step because it is a research evaluation in order to give the reason to confirm that the research results are reliable and accurate by pointing out the consistency of the research hypothesis and theories.

5.0 KESIMPULAN DAN CADANGAN (left, font 11 pt. bold)

Conclusion

Summary of findings from the research which can be summarized according to the specified research objectives.

Recommendation

It is suggested that the results of the research can be applied rationally. It is a suggestion can be used in future applications or further research.

6.0 RUJUKAN (left, font 11 pt. bold)

Reference topics such as 1. Books, 2. Translated books, 3. E-books, 4. Research reports, etc. do not need to be specified in the references.
